REPLACEABLE**

BRINGING NEW LIFE TO YOUR MACHINES

TMQS

Maximum flexibility for your production.

We transform your existing equipment into high-performance assets.

EXTENDED
LIFETIME

IMPROVED
PERFORMANCE

ENHANCED
RELIABILITY

COST-EFFECTIVE
INVESTMENT

BEFORE

Outdated. Inefficient. Limited.

AFTER

Modernized. Optimized. Future-ready.

NEW KDF 2 TE FILTER MAKER

TMQS

Proven technology. Reimagined by TMQS.

5,000 rods/min
or 500 m/min

QUICK
SIZE CHANGE

OEM
COMPATIBLE

CUSTOMIZABLE SOLUTION
Stand-alone or integrated
into existing production lines

ONLINE PERFORATION

LASER 600+ & 800+

TMQS

Compatible with leading single-rod makers.

STAND-ALONE
OEM compatible

FLEXIBLE
Perforation distance
11-20 mm (optional
up to 26 mm)

HIGH VENTILATION
Up to 97% to filter cut

SELECT ONLINE
Single or double-line
perforation

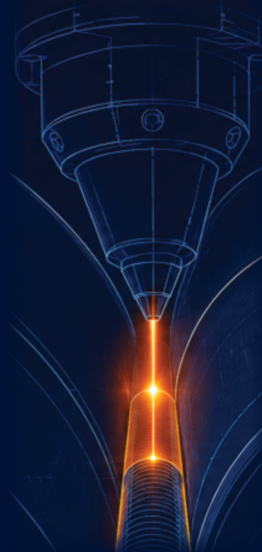

FUTURE PROOF
Designed for long-term
support

BEFORE
Unperforated

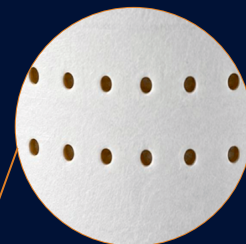

**LASER
PERFORATION**

AFTER
Perforated

ZOOM

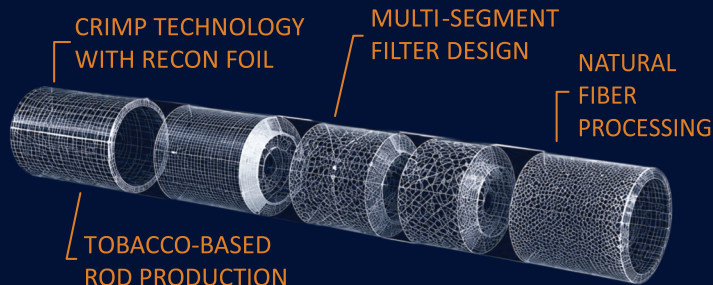

**MICRO LASER
PERFORATION**
Precision laser
holes for
controlled filter
ventilation.

NEXT-GENERATION PRODUCTS

Engineering expertise for tomorrow's product categories.

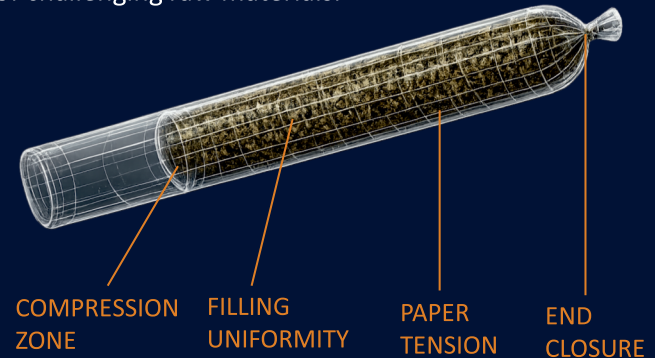

HEATED TOBACCO

Expertise in manufacturing multi-segment filters and tobacco-based rods using recon tobacco, crimp technology and natural fibers.

PRE-ROLL MANUFACTURING

Industrial-scale pre-roll manufacturing with high-speed production and robust processing of challenging raw materials.

FSM

Custom-developed high-performance machine for cutting Roll-Your-Own filter rods.

HIGH THROUGHPUT

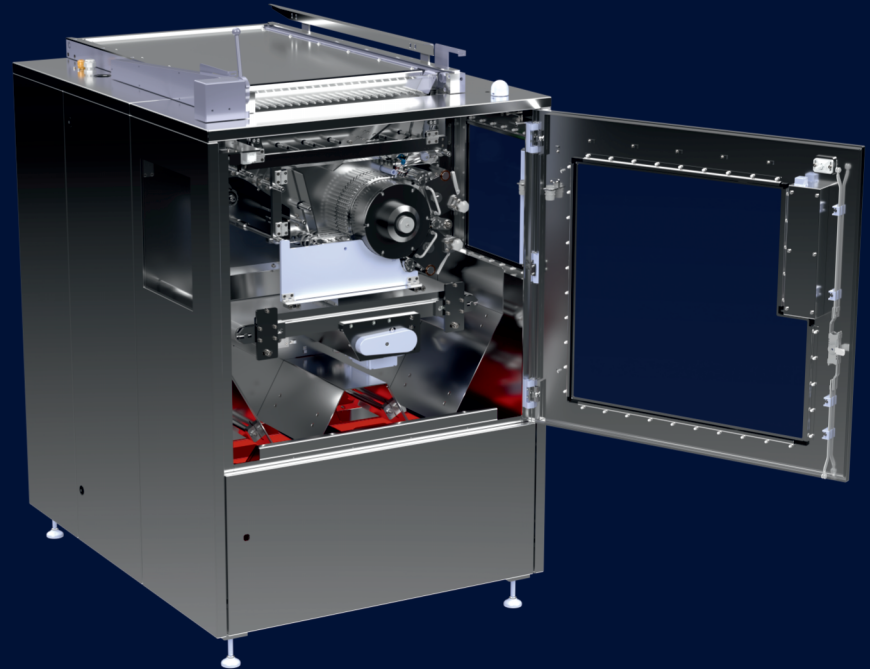

QUICK FORMAT CHANGE

FULLY ENCLOSED DESIGN

FLEXIBLE FORMATS

EXCLUSIVELY DEVELOPED AND MANUFACTURED BY **TMQS**.

NTLI

Automated Inspection System for medical applications.

Fully automated quality assurance station ensuring reliable inspection, full traceability and integration into modern production environments.

100%
